

PhD in Computer Science

in the area of

Scientific Computing

Are you interested in

- simulation
- computational fluid dynamics
- numerical analysis
- finite elements
- high-performance parallel computing

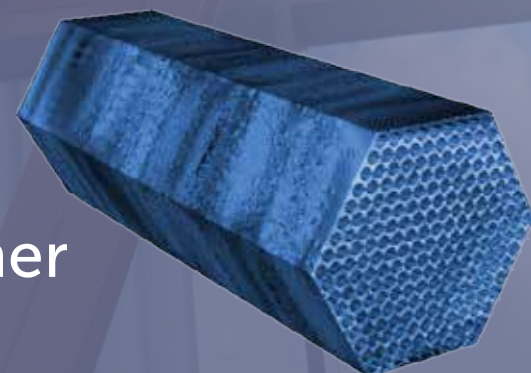

The University of Illinois offers

- computation and theory
- state-of-the-art courses
- large, top-5 CS Department
- Blue Waters, the world's largest supercomputer on a university campus

Faculty in Scientific Computing:

Paul Fischer
William Gropp
Michael Heath
Andreas Kloeckner
Luke Olson

Apply by December 15 to start in August.
Fellowships are available.
